* - Values are indicative only and not exact.

- If you want to know the exact production details send the yarn parameters to info@susiram.in or saravanan@susiram.in
- Compact yarn can be processed 20% higher speed than the quoted speed.
- This chart is only for cotton yarn, for other natural yarns like spun silk, viscose modal, flax, ramie, etc can also be processed in this machine. Send the yarn parameters by mail to get the possible production.
